

COME FLY WITH ME

By Sara O'Brien, the Community Rocks! Kids and Friends
Spring, 2010

CHORUS

**Come fly with me on our imaginary trapeze
Come fall with me, until we scrape our knees
Come climb with me, 'til all the world we see
To the top, tell me what you see**

We hope you're happy up there in heaven
Watching us down here sippin' slurpees from 7-11
Swinging on our swing sets, jumping on our trampolines
Laughing and playing can you hear us sing?

CHORUS

**Come fly with me on our imaginary trapeze
Come fall with me, until we scrape our knees
Come climb with me, 'til all the world we see
To the top, tell me what you see**

We think best friends in heaven are like best friends here on earth
Watching over each other and playing in the dirt
We'll plant new things and together watch them grow
As you stay forever young guide us as we grow old

CHORUS

**Come fly with me on our imaginary trapeze
Come fall with me, until we scrape our knees
Come climb with me, 'til all the world we see
To the top, tell me what you see**
