

FRIENDS

Sara O'Brien & the HoneyBabes

CHORUS

**My friends, we'll be together forever
Boys may come and go but I want you to know
My friends, if you ever need me I'll cross every mountain and sea
Forever you'll be my friends**

The times we share they fly right by
Days turn to nights, we laugh until we cry
We share secrets we share good times
I know that we'll have this for the rest of our lives

CHORUS

Remember when we stayed up all night
And talked about the things that didn't feel so right
By the time the morning came
We figured it all out and worked through the pain

CHORUS

We dance, we sing
We play when the school bell rings
Did you get my note today?
It had something to say, about the sub from Monday.

We talk on the phone, for hours we're never alone
Sometime we fight but it's always all right in the end
Cause your all ...

CHORUS
